

# Manu Ishan

Front-End Developer — Python Backend Fundamentals

ManuIshan Manuishan.in

manueshanchekkali@gmail.com +91 7736620996

## Personal Details

**Date of Birth:** 10 July 2004  
**Gender:** Male  
**Nationality:** Indian  
**Languages Known:** English, Malayalam, Hindi  
**Address:** Parappanangadi, Malappuram, Kerala, India

## Summary

Front-End Developer skilled in **React.js**, **JavaScript**, **HTML**, **CSS**, **Bootstrap**, and **Tailwind CSS**. Experienced in building responsive and scalable web applications using React hooks, state management, props, and routing. Also familiar with **Python OOP concepts** and **SQL / MySQL** for backend logic, scripting and basic API integration. Completed projects and internship applying UI development best practices, performance optimization, and version control with Git. Open to full-time opportunities to contribute to modern front-end development projects.

## Internship

**Techolas Technologies** May 2025 – Present

- Developed responsive web apps using React.js, JavaScript, React-Bootstrap, and CSS.
- Implemented routing with React Router for seamless navigation.
- Used React Hooks such as **useState**, **useEffect**, and **useContext** to manage dynamic UI and logic.
- Contributed to travel package and e-commerce modules with reusable components.
- Followed Git-based version control and agile development practices.
- Learned **Python OOP** concepts (classes, objects, inheritance, methods).
- Worked with **SQL / MySQL** for database operations like CRUD and querying.
- Understood basics of backend workflow and database integration.

## Projects

**Voyantra – Travel Exploration Web App**

2025 Project Link

- Interactive travel platform built using React.js.
- Implemented chatbot system with predefined responses.
- Mock booking + payment flow (Google Pay, Paytm, Amazon Pay).
- Fully responsive with reusable component structure.

**Stylra – E-Commerce Fashion Website**

2025 Project Link

- Built with React.js, React Router, React-Bootstrap, and Custom CSS.
- Global cart system using Context API.
- Product filtering, dropdowns, live cart badge.
- Used React Hooks: useState, useContext, useEffect.

## Artist Platform

2025  Project Link

- Web platform for artists to showcase work.
- Built with React.js, Material UI, React-Bootstrap.
- Gallery pages, writer profiles, responsive design.

## Gym Guide App

2024  Project Link

- Fitness app with Python (Django) backend + Flutter mobile interface.
- Personalized workout plans, videos, progress tracking.

## Education

---

2022–2025 Bachelor of Computer Applications, **LBS Model Degree College, Parappanangadi**  
CGPA: 7.4/10

2021–2022 Class 12th, Board of Higher Secondary Education, Kerala

## Skills

---

**Frontend:** React.js (Hooks, Router, State), JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI

**Backend Fundamentals:** Python (OOP, Error handling, File handling), REST API Basics

**Database:** MySQL

**Tools / Technologies:** Git, GitHub, VS Code, PyCharm

**Soft Skills:** Problem-solving, Critical Thinking, Adaptability, Leadership, Team Collaboration, Communication
